Councillor Report for the Month of:

July 2025

Councillor:

Robert Willing

Meeting: Nuclear Open Houses Debrief	Date: July 3
Key Messages / Updates:	
<ul style="list-style-type: none">- Overall, acceptance of the project appears to very positive. There is a small organized group in Northern Lights that is very set in their opposition but most of their arguments are based on mis-information and a desire to have the area remain as it is. (basically no development)- IAAC indicated that they wanted to talk to the farmers in the area specifically.	

Meeting: MD Road Tour	Date: July 7
Key Messages / Updates:	
<ul style="list-style-type: none">- Always informative when we take these tours around the MD.	

Meeting: LCREDB	Date: July 7
Key Messages / Updates:	
<ul style="list-style-type: none">- Northern Lights has indicated that they would be willing to join Lac Cardinal. Based on our current funding formula and the southern portion of their municipality being considered, the cost would be just under \$40,000.	

Meeting: Council Meeting	Date: July 8
Key Messages / Updates:	
-	

Meeting: Meeting with IAAC	Date: July 9
Key Messages / Updates:	
<ul style="list-style-type: none">- IAAC has no requirements for a community vote and no one is bound by any results from a plebiscite. CNSC also has no requirements, issues from the community are dealt with at the public hearing process. IAAC is not bound by community boundaries, meaning, a “willing host community” transcends municipal boundaries.- Public hearings on the project will start late 2026 to early 2027 with 2 – 6 weeks slotted for the hearings.	

Meeting: Brian Allen Going Away Function	Date: July 11
Key Messages / Updates:	
-	

Meeting: Meeting with Alberta Environment	Date: July 24
Key Messages / Updates:	
<ul style="list-style-type: none">- Discussion on water flow levels in the Peace River and any issues we may have seen.	

Meeting:	Date:
Key Messages / Updates:	
-	

LORI KINNEE
